

Heuristic C, fitted, Bose +1; WKE $\ell^3 = f_0/(\eta_{\text{eq}} n)$; the published ℓ is deconvolved (not undone here). t^* from the linear fit of ℓ^2 over $(\ell/\xi)^2 \in [200, 1000]$ for both

Fig 4a analogue (each curve shifted by its own t^*)

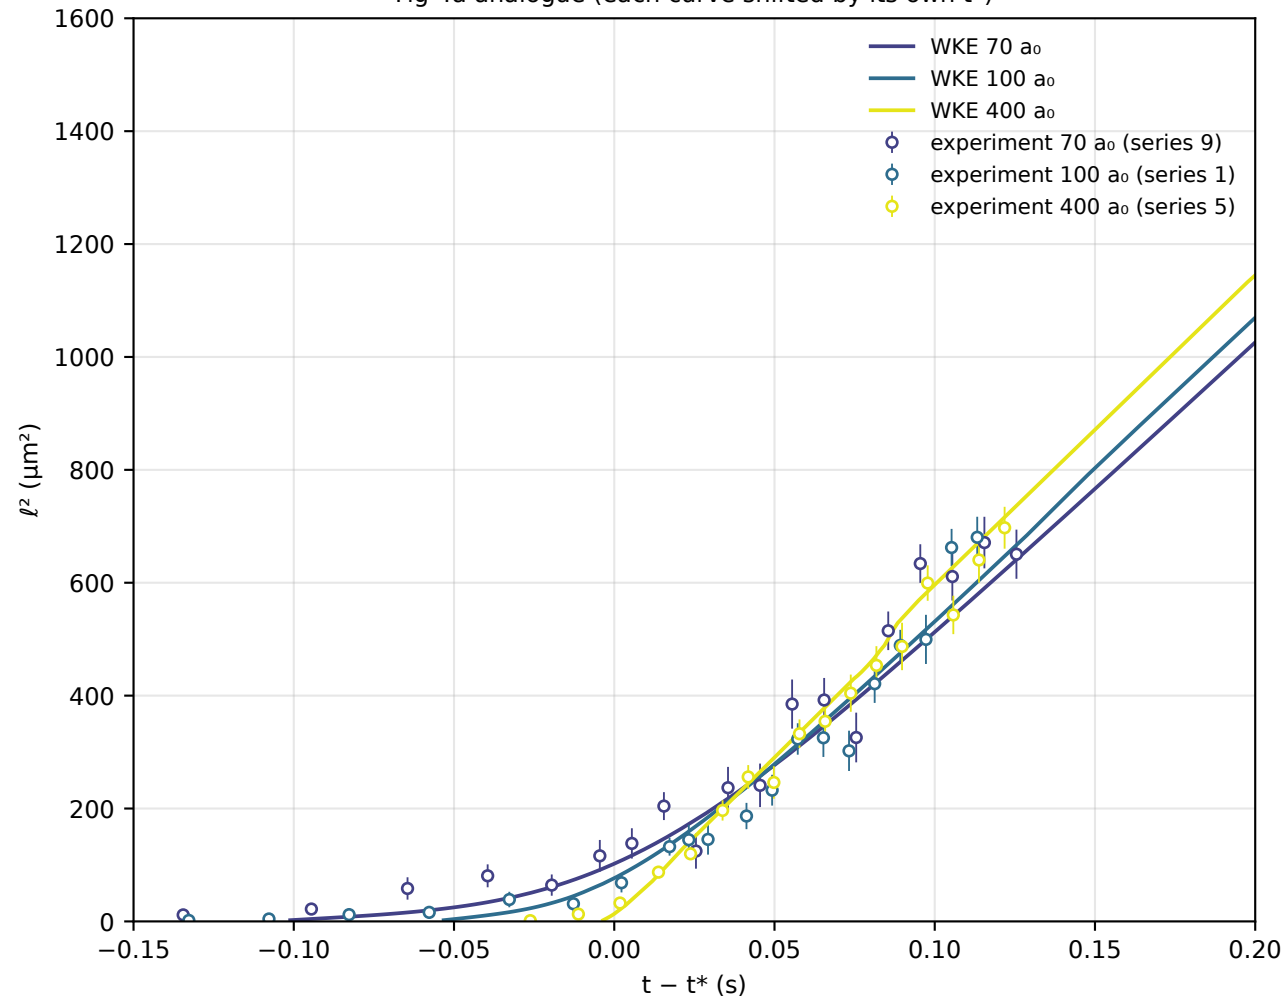

Fig 4b analogue, all series: points experiment, lines WKE
